4 January 1989

MEMORANDUM FOR: Deputy Director for Administration
Deputy Director for Intelligence
Deputy Director for Operations
Deputy Director for Science and Technology

FROM: Executive Director

SUBJECT: Fourth Running of DCI Seminar Series

1. As you know, we have just completed the third running of the DCI Seminar series. The success of the first three runnings has led us to sponsor another for 1989. The main purpose of the program again will be to enable some of our more promising managers to explore selected management issues with senior Agency people, creating an opportunity for them to broaden their perspectives by delving into management challenges to which they would not normally be exposed. As in the first three series, we will be showcasing people who are making a difference here, particularly those who display vision and are acting on it. We also see this as an opportunity for participants to build contacts--to get to know other Agency doers and thinkers.

2. As in the first three runnings, attendance will be by invitation only, to encourage frank and useful dialogue and help ensure that we are targeting the right audience. In that regard, most participants in the earlier runnings thought that we had too many participants to result in such dialogue, so I ask you to nominate only ten (rather than 12) of your "best and brightest" to participate in this year's seminar. We are looking for people in the GS-15 to SIS-3 range whom you consider to have a bright future in the Agency. (By way of reminder, we have attached a list of your participants in the first three runnings.) We plan to kick-off the fourth series in February, so we will need your nominations (and their mailing addresses) by 23 January 1989. We plan to sponsor about ten late-afternoon Headquarters or half-day off-site presentations during the course of the year. We will notify your nominees of their selection for the program and provide them with all of the necessary details.

3. If the first three seminar series are any indication, this should be an enriching experience for all of your participants.

James H. Taylor
